# Part A: Pupil premium strategy plan

## Statement of intent

At Croxton Kerrial CE Primary School, we are committed to providing learning that is purposeful, meaningful and ambitious for every individual pupil. Through a broad and balanced curriculum, we set high expectations and encourage aspirations in all pupils. This includes pupils who belong to vulnerable groups including those who may be socially disadvantaged. We believe that the appropriate provision enables all pupils to succeed irrespective of their background. We are determined to ensure that our pupils are given every opportunity to realise their potential, make good progress and achieve high attainment in all areas.

We will consider the challenges faced by vulnerable pupils, such as those who are 'looked after', have a social worker and who are service children. This statement shows how Pupil Premium, which is additional to main school funding, will be used to address any current inequalities between children eligible for free school meals (FSM) and their non-disadvantaged peers by ensuring that funding supports their needs.

Our aim is that the attainment of Pupil Premium children is level with non-Pupil Premium attainment.

The funding is used in three areas:

1. Improving the quality of teaching eg professional development.
2. Targeted academic support eg individual/paired/small group tuition.
3. Wider strategies eg extra- curricular activities.

### **Key Principles**

**Principles:** Teacher development, enhancing quality of teaching, developing teacher subject knowledge,

**Achieving:** Centralised teacher CPD, Instructional coaching, development of curriculum resources, additional tutoring.

By following these key principles we believe that we can maximise the impact of our Pupil Premium spending:

We recognise that a key factor in achieving high standards of pupil attainment is through teacher development and high-quality teaching and learning. Through delivery of a programme of strong, sustained CPD, focused on evidence-led teaching approaches there will be an improved quality of teaching. Instructional coaching will further contribute to teacher development. We will also concentrate our spending on developing teacher subject knowledge. Combined these will have a high impact on

pupil outcomes. This will have an impact on closing the disadvantage attainment gap while at the same time will benefit the non- disadvantaged pupils in our school.

We will ensure that the needs of socially disadvantaged pupils are adequately assessed and supported as appropriate. We will monitor the children’s attainment and progress, as well as their emotional and social well-being in order to measure impact of the Pupil Premium. Pupils will have opportunities to broaden their experiences, talk and socialise in a wider group to improve life skills and wellbeing. Spending will ensure that no pupil misses out of such important aspects of education, that learning is enriched and their self-confidence grows.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Limited vocabulary to be able to access the academically rigorous curriculum
2	Gaps in learning, both from the impact of COVID, but also historically
3	Variability in the effectiveness of teaching over time
4	Historical lack of achievement in phonics
5	High levels of persistent absence and low school attendance

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
All pupils have a strong start within school, with high quality teaching and phonics provision ensuring the ability to read, and therefore access all curriculum areas	GLD outcomes for disadvantaged pupils will meet that of their non-disadvantaged peers nationally
Consistently strong teaching and learning practice, where evidence-led strategies are employed within lesson delivery	Teachers have strong pedagogical knowledge Teachers make well informed pedagogical choices Pupils remember more over time
Strong reading outcomes for pupils in the lower school	Pupils achieve in line with non- disadvantaged pupils nationally in the PSCand in the Reading ELG

Raise disadvantaged attainment in all key metrics at each statutory assessment point	Disadvantaged pupils attain at the same level as non-disadvantaged pupils in each statutory assessment point.
Disadvantaged pupils rates of attendance increase	Disadvantaged pupils attend at the same levels as their non-disadvantaged peers

## Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Providing small group and 1 to 1 work with an experienced LSA focused on overcoming gaps in learning. The major focus of our work, through the pupil premium, is aimed at improving pupil progress, enabling children to meet at least age-related expectations in Literacy and Numeracy. Paired or group tuition/intervention supported children with specific identified needs; without which may have put them at risk of underachievement.

All children have made small steps progress. Those that are not working at the expected standard for their year group have made progress and are closing the gap. 42% achieved expected standard. All children were supported through intervention, specific programmes, the National tutoring programme and school-based tutoring.

School visits and activities asking for voluntary financial contributions from parents. This includes trips such as residential and activities like swimming. Pupil premium funding was used to support children.

Children's learning was enriched and their self-confidence continued to grow. No child missed out of such important aspects of education.

Help is given with the cost of having milk at school

Nutrition was supported and the health of children generally very good.

Financial support for extracurricular activities, including those offered by other clubs or providers outside of school. This has included, for example, Penguins CReW Club (afterschool club provision) dance lessons and private music tuition. This support enables children to participate in clubs/activities for curriculum enrichment.

Attendance at the after-school club is high. Children participated in musical performances and as team members in school sports tournaments. Confidence levels were high.
